Significant unmet need

• 50 million people need assistive technology to communicate

• Low penetration (1-2% globally) provide foundation for long-term market growth
Rock-solid global leader position

- Strongest presence and distribution in the industry
- Most comprehensive offering of leading products
- Unmatched access to reimbursement
- Leading clinical expertise and training organization
- Strong eye tracking technology advantage

Global market share

- Overall assistive technology communication market: 40%
- Eye controlled assistive technology: 70%

Revenue by customer category

- Private clients
- Public funding
- Private insurance

Top 10 customers

- Medicare
- Medicaid
- Humana
- Kaiser Permanente
- Norwegian labour and welfare administration
- German Krankenkassen
- Carecentrix
- Tricare
- UK NHS
- United Healthcare
Tobii Dynavox 2018 highlights

• Increased sales significantly through the updated portfolio of touch based products and large-scale training initiatives

• Launched several new touch-based products, including SpeechCase for iPad and Indi 7

• Launched communication software Snap + Core First in 10 new languages

• Acquired the UK-based company Smartbox Assistive Technology to strengthen the Company’s geographic presence and to broaden the offering of communication solutions
Tobii Dynavox – Financials

Financial target

Tobii Dynavox’s long-term financial target is to increase revenue on average by 10% per year with an EBIT margin of 15–20%.

Net sales and gross margin

Sales grew 16%, or 9% adjusted for currency and acquisitions.

Operating profit (EBIT)

Adjusted for one-time effects (mostly acquisition-related), EBIT margin would have been 10%.
Continued growth through…

- Grow our market share in touch segment
- Drive higher awareness and understanding
- Expand geographic footprint
- Add new user segments and channels
- Acquisitions
Tobii Pro’s mission is to empower professionals with revolutionary insights into human behavior, using eye tracking as our foundation.
Tobii Pro is organized towards three segments:

- **Scientific Research**
- **Professional Performance**
- **Marketing Research & User Experience**

- New segments and industries start using eye tracking to understand behavior
- Continue to grow and strengthen global sales force
- Grow research services business
- New hardware and software products to expand use and drive added revenue
Tobii Tech’s mission is to enable devices to visually sense the user - to transform your everyday experiences to be more intelligent, intuitive and insightful.
Three volume market opportunities currently in focus

- PC
- Virtual Reality
- Niche Applications
Continued work in tight partnership with lead PC customers

• Very large addressable market
  • 1.2 billion play games on PC
  • 20 M high-end gaming PCs per year – growing rapidly
  • 400 M watch e-sports; 200 M practice e-sports – growing very rapidly
  • Long term: 400M PCs and Tablets per year

• Smart sensor trend gaining momentum in PC
• USB.org approved standard for eye tracking by Tobii and Microsoft, and native Microsoft Windows integration
• Launched the Tobii IS5 eye-tracking platform for integration in computers and monitors
• Dell launched new version of Alienware 17 gaming laptop and new Alienware Area 51-m (first with IS-5 built-in)
• Growing no. of available games, >140 titles
• Significant traction in e-sports broadcasting and game streaming
Tobii Aware increases the addressable PC market

• Tobii Aware is a software that brings new benefits to the PC market:
  • Improved privacy & security
  • Digital wellbeing
  • Enhanced device performance
  • Increased efficiency

• Lenovo is the first OEM customer for new Tobii Aware
Eye tracking is becoming a must-have in VR and AR

- IDC project rapid growth of VR & AR markets
  - >50% growth in 2019 to 9 M units
  - >60% CAGR to almost 70 M units by 2023

- Deep Qualcomm collaboration and reference design for mobile VR headsets with Tobii eye tracking

- HTC announced the Vive Pro Eye
  - The first major VR headset with built-in eye tracking

- Working with several major partners and customers to integrate Tobii eye tracking into upcoming devices

- Expect eye tracking to be mainstream in VR & AR within 3 years
